Transforming Healthcare | Chief Product Officer

November 3, 2023, Nasir was senior to Fardin but didn't manage Fardin directly

 All LinkedIn membersOn 

I had an opportunity to work with Fardin on a strategic partnership initiative that was sponsored by our CEO. Fardin understands the healthcare technology and services space well. He was able to help build the business case that translated into long term contractual relationship for the company. Fardin brings a positive growth mindset and is always willing to go above and beyond.

**Roopam Narayan** · 1st

Senior Management professional with multi-functional experience in IT and Business Process Services | Healthcare Payer, Banking &amp; Financial Services, Manufacturing | IT Strategy, IT Infra &amp; Cloud, BPS and BPaaS

August 4, 2023, Roopam managed Fardin directly

 All LinkedIn membersOn 

Fardin worked in my team for over five years, between 2017 and 2022 first on the initial business case for building Next Gen Healthcare BPaaS offerings and then as a Services Product Manager responsible for standardizing, automating and industrializing certain business functions under BPaaS. Prior to this role, I had interactions with Fardin on Cloud enablement project of our market leading applications in 2015-16, where I found him to be the right fit for the BPaaS role.

In the then emerging new BPaaS business unit, Fardin showed strong entrepreneurial skills and delivered multiple roles – be it managing vendors, managing budgets, leading process transformation and working on the intersection of Technology and Digital Operations. Extending his role in BPaaS, he also oversaw implementation and delivery of two key business functions for our anchor large TCV (>\$100M) client. His passion, hard work, client centricity and being a strong team player, has contributed immensely to the success of Cognizant BPaaS services.

Fardin has my recommendation and best wishes for whatever he chooses to do in future!

**Arun Kumar Ghosh** · 1st

Client Partner at LTI Mindtree

I highly recommend Fardin Quazi for his exceptional contributions in the BPaaS implementation and delivery with a deep functional knowledge of mailroom and CRM processes, he leveraged in streamlining operations. Fardin's outstanding interpersonal skills fostered a collaborative work environment, boosting team morale and cohesion. His client focus was evident through personalized service, resulting in increase in client satisfaction. Fardin's dedication and proactive approach to problem-solving make him an invaluable asset to any organization. I have witnessed his professionalism firsthand and confidently endorse him as a valuable Leader.

Fardin was part of my team for more than 5 years, while working in Cognizant's Healthcare BU from 2010 till 2015. He was one of the brightest talent in our team and his positive attitude and pragmatic approach to address problems, resonated with everyone. He successfully led multi-million dollar deals in Business Solutioning, Implementation Plan and Business & System Analysis and helped the organization win new projects and new logos. He independently managed the deliverables from Hyderabad & US while coordinating with our larger team in Chennai. Fardin has a unique ability to drive outcomes and take independent charge and ownership while being a team player at the same time. I recommend him for his resourcefulness, zeal and leadership qualities.

Fardin brings to the table new ideas for Business Solutions in the areas of AI, Automation & Process Excellence, and especially in the areas of Healthcare Technology as well as Healthcare Process Automations, which are his domains of expertise. He has immense experience working on multiple projects in various roles and that shows in his outcomes with an Out of the Box thinking and creative solutions to address client's business and tech requirements. He is always striving to learn more and enhance his abilities. I have been working with Fardin on multiple initiatives within Cognizant and would gladly recommend him as an employee for his knowledge, skills and professionalism.

Fardin is a highly skilled and experienced IT professional with rich experience in Healthcare Payor domain. He played many roles in recent years – business development, delivery, domain SME and so on - wants to learn and grow along with the organization. He is always highly collaborative, strong communication, inspiring, positive attitude, accountable and responsive. He is also a great team player and motivator, always open for feedback and making improvements. His work is always outstanding & customer centric and always goes the extra mile to ensure

the company standards and client requirements are met. I must say he can be an asset to any company

Fardin is a happy-go-lucky kind of person. Always calm and looking forward to have fun. Fardin amazes one with the deep understanding he has in his field of specialization, he is a person with great learning instincts. Fardin is young, bright, full of energy and brings enthusiasm to his work. He knows what he is talking and is full of new ideas and is innovative and passionate. He brings a unique style to problem solving and client interactions. Fardin is very active socially apart from giving his best at work. He is well mannered and a capable professional. He is just the kind of guy you want in your Core team. Wish him all the best in all his endeavors and a very successful professional career.

Fardin has a positive attitude and incredible energy to perform under constrained and competitive conditions. He has the right skills & knowledge to provide business value to project stakeholders. I recommend Fardin's work & attitude for all his future endeavors.

**Rangarajan Chakravarthy** · 1st

Growth Enabler - Practice Leader - Advisor with strong focus on transformation work in Oracle, SAP and Workday

May 6, 2008, Rangarajan managed Fardin directly

All LinkedIn members

On

Fardin is a tremendous asset to any organization. While at Cognizant he was able to take on multiple responsibilities in pressurized situations and was able to deliver without dropping the ball. Whether it's work or his personal self, Fardin comes across as a straightforward guy with clear headed thinking. I would recommend Fardin for the skills and the affable qualities he brings on to the table.
