Installation Photos

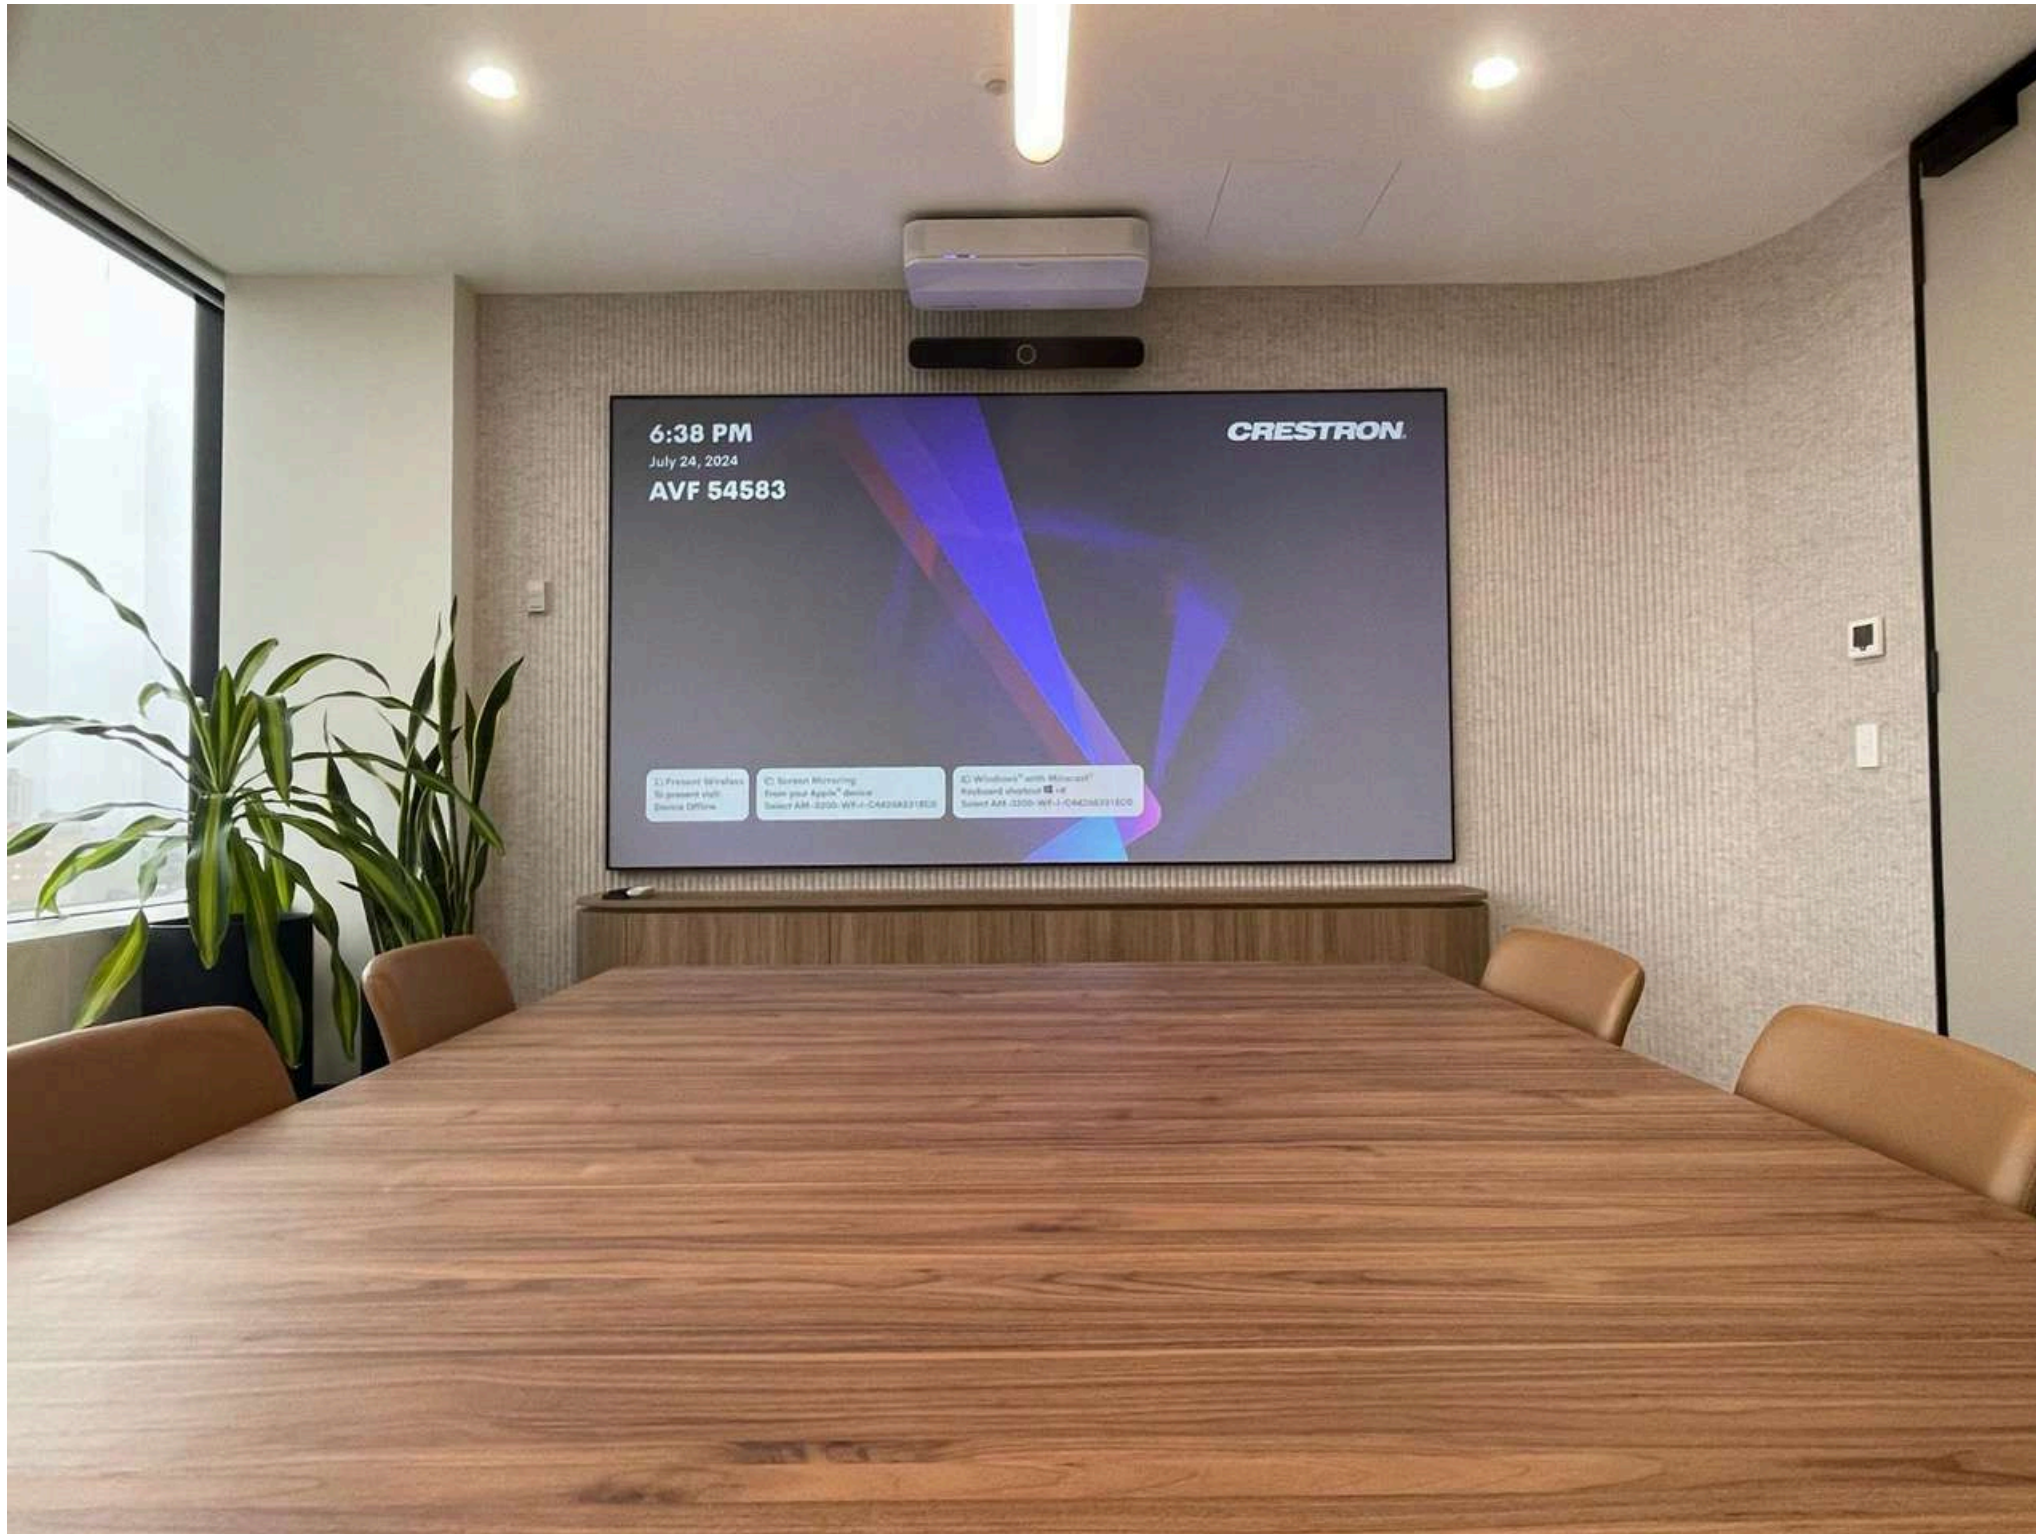

Kambala Lecture Theatre

Our latest lecture theatre installation for an education client is packed with state-of-the-art technology, designed to create a seamless, high-quality learning experience.

Additionally, we designed and installed custom cabinetry for the front desk, providing a sleek, functional space for seamless technology integration and a professional finish.

This space is now fully optimized for modern education and hybrid learning!

Installation Photos

Epson Meeting Room

We recently completed a premium boardroom installation, delivering a high-end projection and collaboration solution to elevate meetings and presentations.

Technology Highlights:

- Ceiling-mounted Epson Projector with a sleek professional finish paired with a fixed projection screen for crisp visuals
- Crestron Room Scheduling Touch Screen for easy booking and room management
- AirMedia Wireless Connectivity for hassle-free screen sharing
- HDMI wall plate and seamless cabling for a tidy, clutter-free workspace

This setup ensures effortless connectivity, clear communication, and a professional meeting experience, perfect for hybrid meetings, presentations, and team collaboration.

Installation Photos

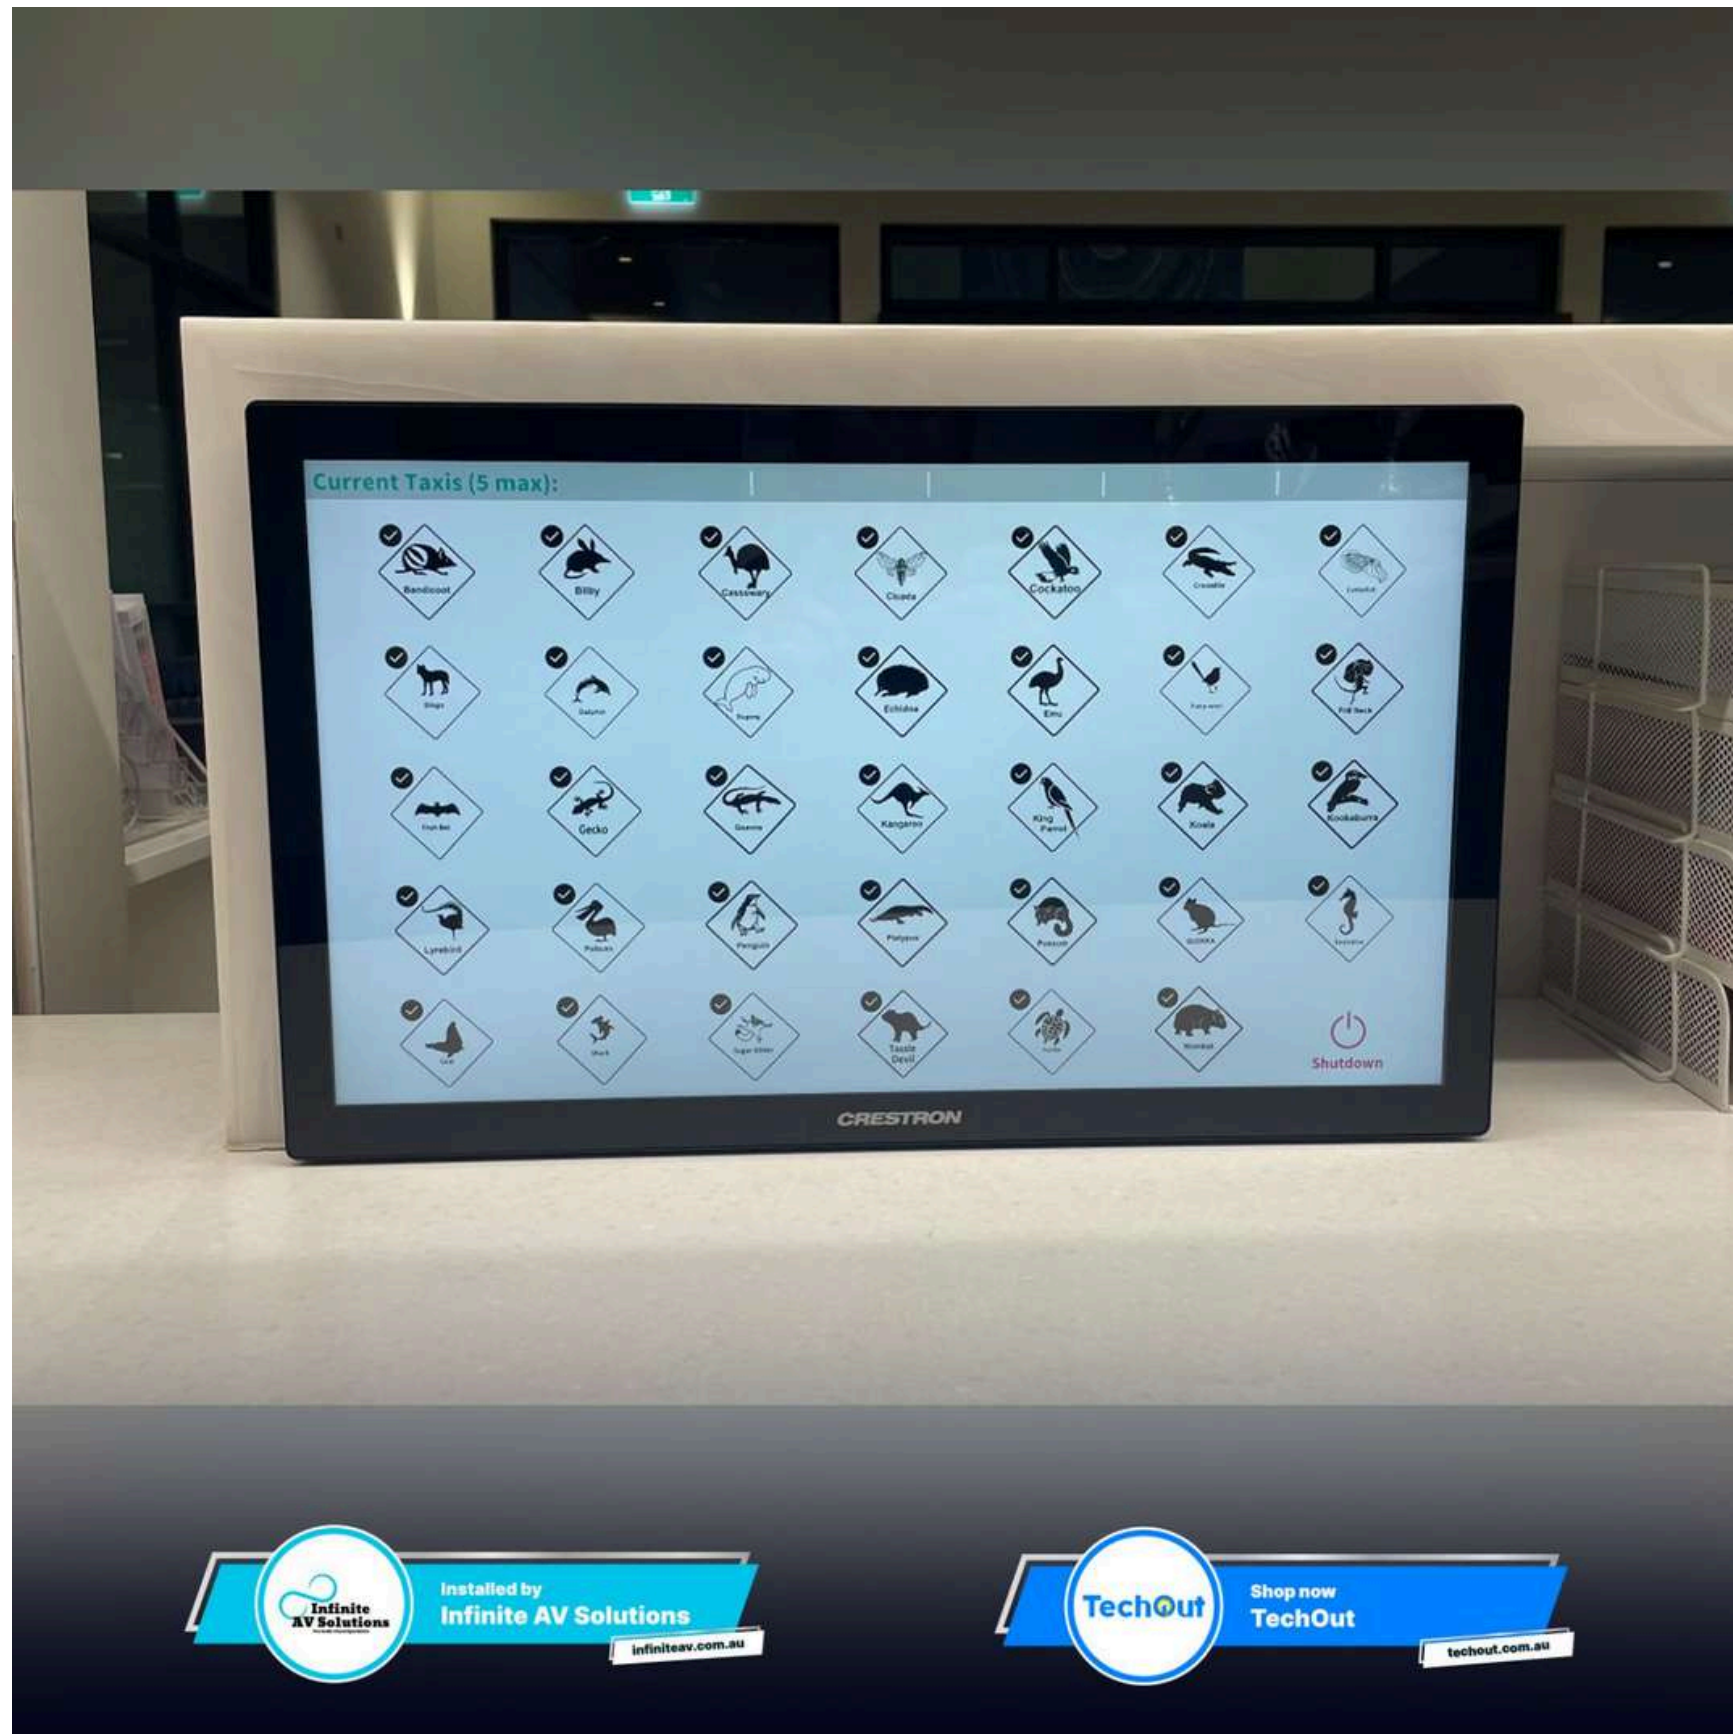

New Forest Meeting Spaces

Boardroom – Smart, Sophisticated, Seamless
Designed for high-impact collaboration, the boardroom now features:

- Dual Sony 85” Displays with integrated Logitech Rally Bar Minis
- Shure MXA310 Table Array Microphones and P300 DSP for pristine audio
- Extron Control System, fully accessible via iPad & iPort Dock
- Eight discreet Soundtube CM82-EZs-II ceiling speakers powered by QSC Amplifier
- Ubiquiti Wi-Fi & switch gear to ensure seamless connectivity

This is a high-functioning boardroom setup that empowers hybrid meetings and presentations with ease.

Installation Photos

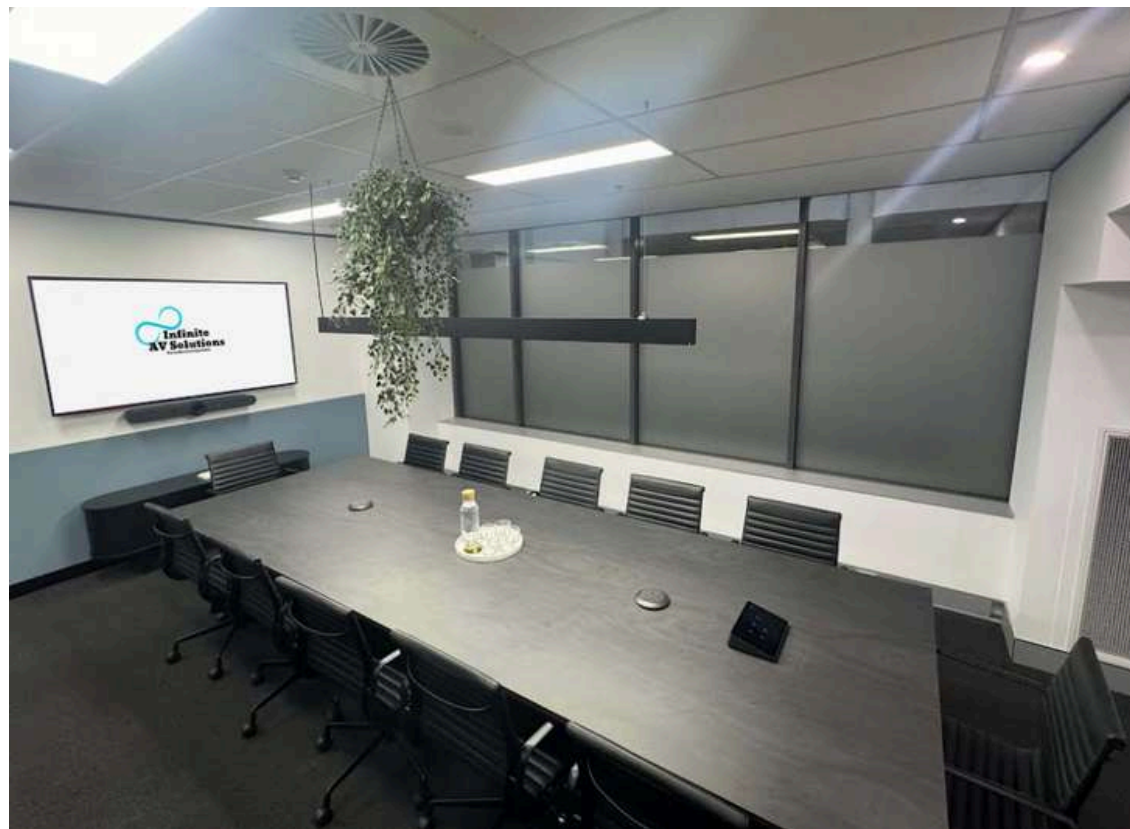

Taxi System

We recently completed a brand new Taxi System at St Gabriel's High School, to assist in getting students out of school in a more efficient way.

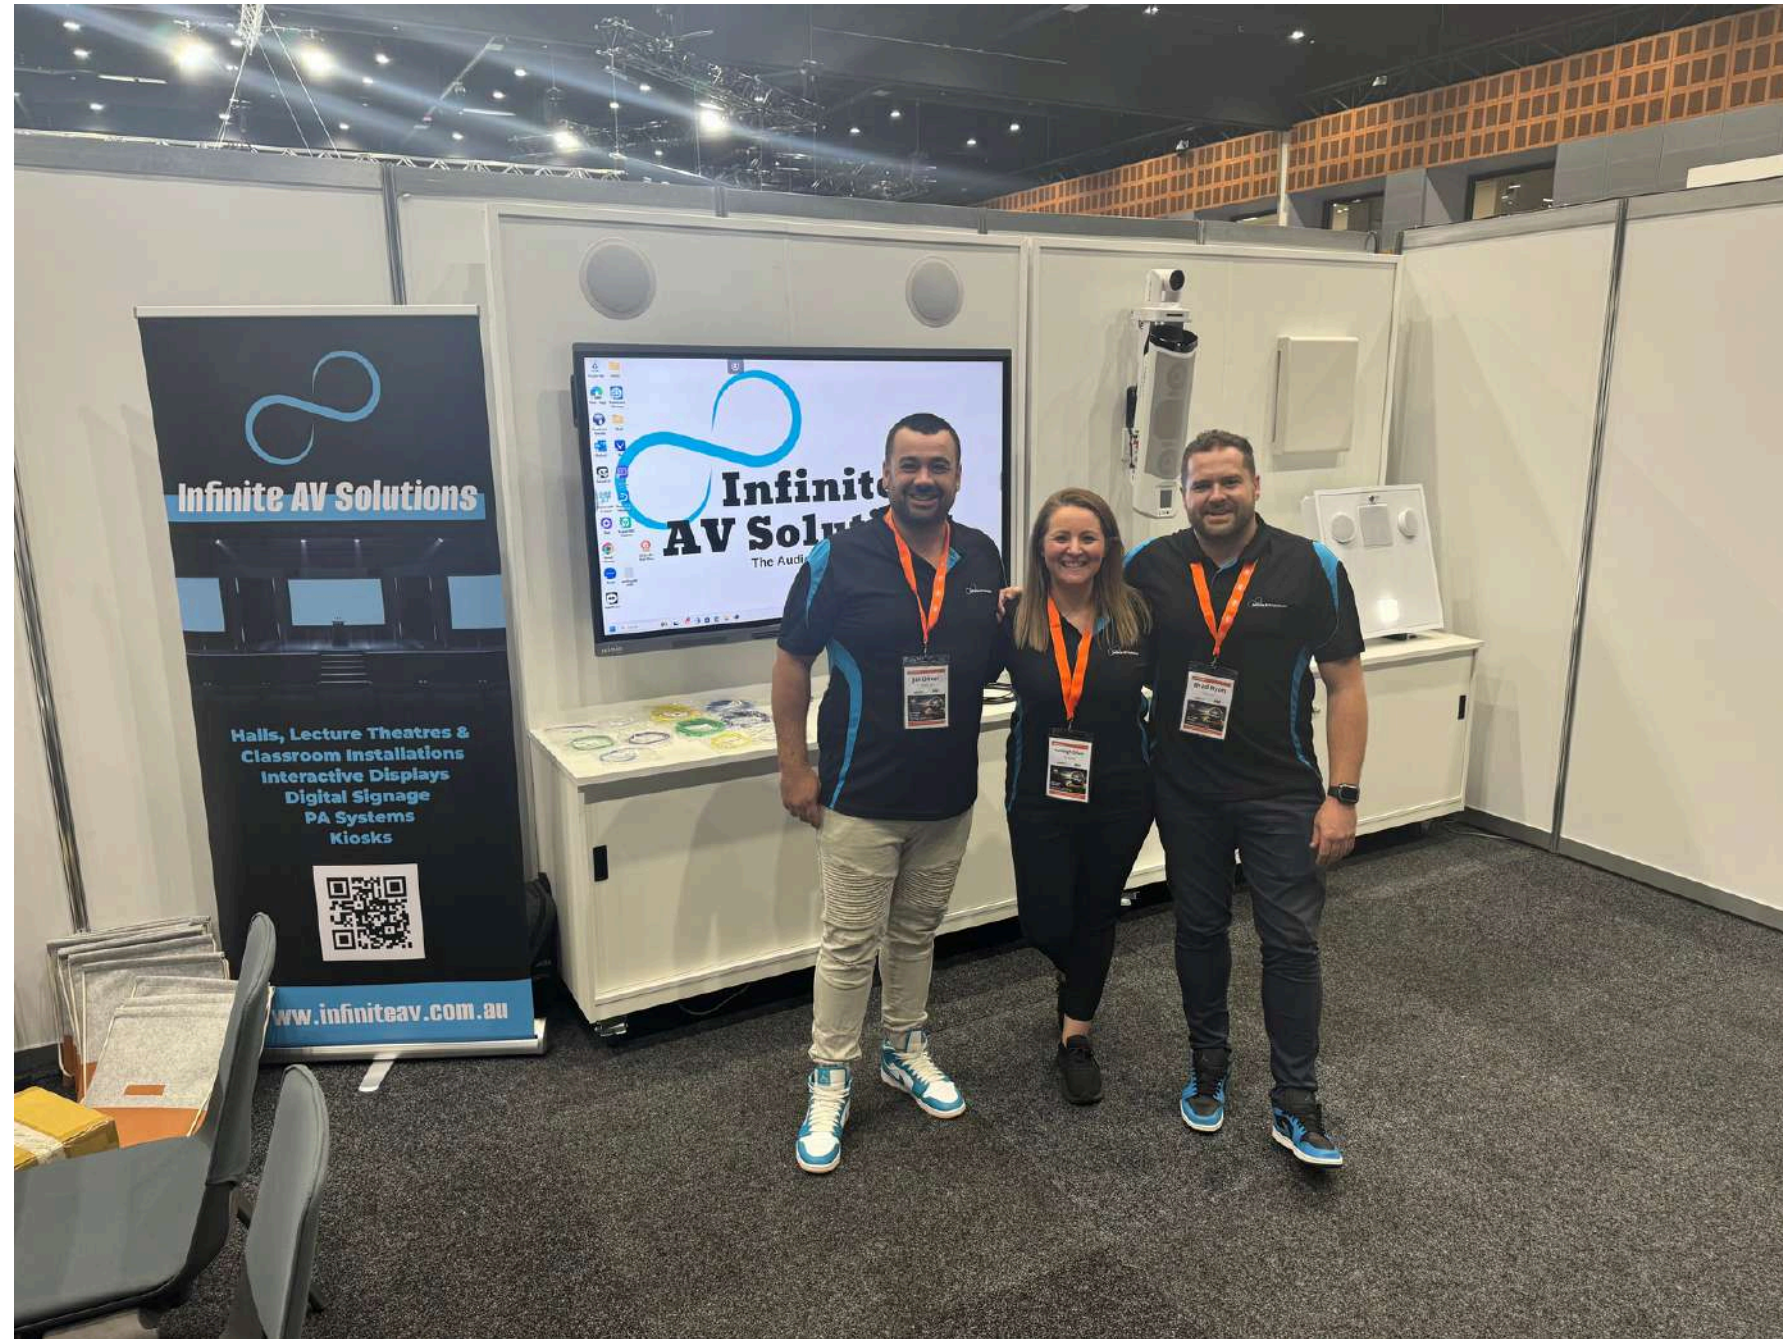

The outcome:

- Gets students out of the school in 15 minutes, compared to the previous 40 minutes.

Happy Client Reviews

Jennie Gray

★★★★★

I work for a school who was in need of an urgent installation/supply of projector equipment. A quote request was sent & within 5 mins the staff had contacted to assist. As the location was in the Blue Mountains & it was school holidays, they were happy to quote based upon photos. The quote was received the day (Friday) after initial call. When booking the service, I explained we had no projectors for teachers to utilise for lessons, they quickly made time for us on the Wednesday. As this is a 2 day job, it was finalised less than a week later. All interactions both in person, over the phone & via email, all staff have been amazing & wonderful to work with. I can say our school is looking forward to continuing our business with Infinite AV Solutions. Highly recommend their services.

★★★★★

Sydney Roosters

Needed a job done urgently, the team were responsive to my query and assisted with additional items needed in a friendly and timely manner. Over a month since the job was completed and we are definitely happy with the work that was done.

David McDonald

★★★★★

We recently had our AV equipment supplied and installed in our boardroom by Jai and the team at Infinite AV Solutions. From our initial enquiry and to the installation it has been a pleasure to deal with such a professional, reputable company. We would highly recommend Infinite AV Solutions, thanks Jai and Ashleigh for your great service.

Nathan Magoo

★★★★★

Fantastic Service & Product Provided, We spent weeks speaking with other company's and never getting return call or good service until we Contacted Ashleigh & Jai and they were beyond amazing, Got us the product we needed within the week and were always there to Discuss out options when we required help.

Robert Bisset

ICT System Administrator

St Gregory's College Campbelltown

We have employed InfiniteAV's services for many projects over the past 10+ years and I can confidently say that they are one of the best contractors we have worked with. InfiniteAV always delivers both small and large projects with a high attention to detail and quality workmanship that we can rely on. They always have time for us to discuss quotes and plans, and have been meticulous in meeting deadlines. We highly recommend them for any AV needs, especially within an educational setting.

Testimonials

Infinite Audio Visual PTY LTD first opened an Account with NAS Solutions in 2022 when their new Company first started trading. I personally take care of their account and it is indeed a pleasure to work with such focused individuals whose business has phenomenally grown to now being one of our largest Commercial and Professional audio dealers to date.

Their installation work is nothing short of first class, plus word has spread in the industry and we continue to receive more and more orders from their admin team with substantially higher and higher price points. Attention to detail in their work is excellent.

The amount of time that this has occurred in is indeed impressive as most normal dealers would need 7-9 years to achieve this level of business.

We are so proud to be servicing Infinite AV and we marvel at their ongoing success

I am happy to further discuss this at any time and I am confident that this growth rate will absolutely continue well into the future.

Kind regards,

Michael Prestipino | Account Manager, NSW/ACT

E: michael.prestipino@nas.solutions | M: 0400 197 654 | INT: +61 400 197 654

Michael's testimonial provides external validation of the rapid growth Infinite AV has achieved, outpacing its industry peers. He confirms that from opening our supplier account with NAS in 2022 and within three years we are now "one of [NAS's] largest Commercial and Professional audio dealers to date". He states that others within our industry "would need 7-9 years to achieve this level of business".

Infinite AV Solutions saved the day for our office. We had no AV setup and were relying on a crew to come in with their equipment to manage meetings, which was a debacle. Jai and his crew installed a world-class setup, and I cannot recommend them highly enough. Out of the three vendors we worked with via procurement, Infinite AV was the leading contender in response, service, and delivery.

This public testimonial from Labcorp demonstrates the high level of customer satisfaction that Infinite AV Solutions enjoys, while competing in competitive procurement processes with two other prominent competitors within its industry.

I wanted to share the news with you that the taxi system put in place by your team is a huge success and we've now cleared all children out of the school within 15 minutes compared to 35-40

On behalf of the whole team at Gabes please extend our gratitude to your team.

We look forward to continued business with InfiniteAV

Kind Regards,

Jase

Letters of Recommendation

To whom it may concern

My name is Mervyn Moodley, and I am the ICT Manager at Norwest Christian College. Jai Oliver worked on the installation of Audio-Visual equipment in our new building that was completed at the start of January 2022. The installation included three Science Labs, eight Classrooms and 5 Common areas. One of the common areas is a large presentation space. The installation included interactive data projectors, demonstration cameras, sound systems, and large screen displays. The main common area was setup to allow both simple setup for teachers to use without assistance and advanced setup to allow the AV team to manage larger events.

Jai and his team completed all work on time and demonstrated a high level of knowledge and skill with all the work assigned to them. We were able to communicate with both Jai and his team effectively, and they made themselves available when needed.

The workmanship was good, and they were able to work alongside other contractors that were onsite at the same time. They problem solved quickly to rectify issues. An example of this was when other contractors did not install cabling correctly, Jai and his team rewired where necessary without incident or objection.

I am confident in recommending Jai and his team based on our past and ongoing relationship.

Kind Regards,
Mervyn Moodley
ICT Manager

To Whom It May Concern,

I am writing to express my recommendation of Jai Oliver from Infinite AV Solutions.

Their collaborative nature and proactive approach to problem-solving make them a valuable asset to our College. In addition to their technical expertise, Infinite AV consistently demonstrate professionalism, reliability, and a strong work ethic. They approach every task with enthusiasm and attention to detail.

One notable project that Infinite AV Solutions contributed to was our Junior School, which consists of 20 classrooms. They worked alongside the builders, Steve Watt Constructions, demonstrating exceptional teamwork and coordination. They were able to professionally deliver AV solutions whilst meeting the agreed deadlines.

We continue to work with Infinite AV as we can rely upon them for both small and large projects to be completed in a professional manner.

Kind Regards,
Paul Putland

Letters of Recommendation

Friday, 15 March 2024

To Whom It May Concern:

I am writing this letter to recommend **Jai Oliver** and **Brad Ryan** for their audio-visual installation work, in a recent building project at Oakhill College.

For this project, Jai and Brad were directly employed by Oakhill College, however they reported to both FDC Constructions and Oakhill College. They were responsible for audio-visual fit out in the entire building, comprising of multiple learning and common spaces. Their ability to bridge the gap between the construction team and our educational institution was invaluable.

Here are some key highlights of their contributions:

1. **Technical Excellence:** Jai and Brad's technical prowess was evident throughout the project. They meticulously installed audio-visual infrastructure, ensuring optimal functionality and seamless integration. Their attention to detail and commitment to quality were commendable.
2. **Problem Solvers:** When faced with design issues or discrepancies, where the architect design did not match the builder's plans, Jai and Brad directly collaborated with the builder, architect, and College, to rectify issues in a practical and efficient manner.
3. **Timely Completion:** Despite the complexities of the construction project, Jai and Brad consistently met deadlines. Their efficient work ethic and ability to stay on schedule ensured that the project progressed smoothly. Their commitment to timely delivery was crucial for Oakhill College.
4. **Effective Communication:** The line of communication between Jai, Brad, FDC Constructions, and Oakhill College was exemplary. They provided regular updates, addressed queries promptly, and fostered a collaborative environment. Their transparent approach facilitated a harmonious working relationship.

In summary, Jai Oliver and Brad Ryan are professionals who excel in their field. Their dedication, technical expertise, and interpersonal skills make them an asset to any project. I wholeheartedly recommend them for audio-visual fit out, where they would be engaged directly by the school to work with a builder on large or small construction projects.

Please feel free to contact me if you require any additional information or clarification.

Sincerely,

Anton Kraus

Director of ICT

As part of our commitment to continually improving the learning experience for our students, we began exploring smart board and video conferencing technology, something we hadn't previously used in our classrooms. We wanted to see whether it could enhance the way we delivered hybrid classes and support more engaging, interactive learning.

When we first met with Infinite AV Solutions to explore pricing and options, we immediately felt confident that we had found the right partner. Their team understood our vision, asked the right questions, and gave us confidence that they could deliver a solution that would truly elevate the way we teach.

We began with a small trial of smart boards and video conferencing systems. The results spoke for themselves, the technology was intuitive, reliable, and made a real difference to the quality of our hybrid classes. From there, it was an easy decision to expand the rollout across all seven of our campuses.

Equally impressive has been the service from Infinite AV Solutions. Their team has been responsive, supportive, and always available to assist whenever needed, making the transition smooth for everyone, even those less confident with new technology.

Infinite AV Solutions has not only provided us with outstanding technology and support, but they have become a trusted partner in our vision for modern, connected education. Their expertise, professionalism, and genuine commitment to our success have been second to none. We are proud to recommend Infinite AV Solutions to any institution looking to elevate teaching, learning, and collaboration to the next level.

★★★★★ a month ago

Our congregation was struggling to see content presented at the front of our church, and those presenting from the front (such as speakers/singers) were struggling to see stage monitors. So we looked around for a suitable AV vendor to help us upgrade our existing systems. After engaging with a number of companies, we chose Infinite AV based on their technical knowledge, their recommendations and their experience. The actual install took 2 days, and since that time, we have had lots of positive feedback. The Infinite AV team have done a fantastic job, the results are excellent and we are a very happy customer!

We've been working with Jai and the team to install meeting room equipment for online and in personal meetings across multiple rooms in our business, and the experience has been fantastic. The team was professional, efficient, and ensured everything was set up to a high standard.

A special mention to Jai, who has been incredibly helpful and knowledgeable throughout the process. He took the time to answer all my questions and provided great insights, making the installation smooth and hassle-free.

Overall, we're very pleased with the quality of work and service provided. I'd highly recommend Infinite AV Solutions to anyone looking for reliable AV solutions.

Having Infinite AV Solutions on board has been a valuable asset to council. Jai and his team are always willing to assist, no matter how big or small the request. Their set-ups has been easy and simple and easy to use, great for a wide range of customers throughout our venues. The knowledge and professionalism of the team are valuable with multiple setups we require.

Thank you for going above and beyond and that extra mile – literally - to help us out with the Yealink WPP30 presentation dongle. I managed to pair it and had the presentation working for a very important meeting. I appreciate your excellent customer service, which from the research we conducted for an AV Solution provider, is why we chose Infinite AV Solutions. The entire team at Infinite AV Solutions know their business, are reliable, responsive and a pleasure to deal with.
